

PHARMSAVER™

MAXIMIZING YOUR BOTTOM LINE

## THE PREMIER PHARMACEUTICAL ORDERING PLATFORM

## CUTTING EDGE TOOLS

I especially like the Watchlist tool for shorted items with custom parameters! No other site I have seen offers that.

David, LA

## COMPETITIVE PRICING

PharmSaver is an amazing alternative when your wholesaler doesn't give you competitive pricing on generic drugs.

Brian S., PA

## REMAIN COMPLIANT

I would recommend their services to anyone who wants to save money, while buying drugs & also remaining compliant with their primary wholesaler.

Kirtan P.

# WELCOME TO PHARMSAVER

PharmSaver™ is a client-driven company that saves US pharmacies time and money. Our systems are easy to use, powerful, feature rich and simply the best pharmaceutical ordering system available.

We offer a one stop shop that connects your pharmacy to a dynamic marketplace of 14 pharmaceutical wholesalers and we do it in a way that enhances, not restricts, your current ordering process. You set the rules and we find the best prices. With no wholesaler affiliations we guarantee an unbiased marketplace.

While you can enter one item at a time, PharmSaver is the only online service that lets you upload a primary wholesaler purchase order and compare against current pricing of other wholesalers. In seconds we can compare hundreds of pharmaceuticals against more than a dozen wholesaler catalogs and deliver the best price performance.

# SHOP YOUR WAY

For pharmacies we can upload Purchase Orders, Acquisition Cost and Drug Utilization as well as several other types of files. Uploads available have been customized for your organization. [Reset](#)

1 **Upload Type** PO AmerisourceBergen Corp ▾

2 **File Type**  Excel  Adobe PDF  CSV/Delimited

3 **Upload File**  No file chosen

4

You can upload **Adobe PDF** files by browsing to the file on your PC. Click Upload when you are ready.

#### PO AmerisourceBergen Corp Help

Match: **Match by NDC w/GPI Override**

Selection: **Lowest Unit Cost**

#### We automatically select:

Brands when saving: 0.25%

Generics when saving: \$10.00 -or- 10.00%

#### Your primary wholesaler offers:

Generic Rebate: 10.00%

Rebate Code: PRXO

[View Required File Layout and Additional Help](#)

PharmSaver also allows PO uploads in PDF and Excel files from primary wholesalers. The system evaluates the pricing based on your own customizable purchasing rules. PharmSaver compares dead net pricing to over a dozen other wholesalers to maximize savings. We analyze your complete purchase order in seconds.

# PRIMARY WHOLESALE UPLOAD

With our GPI matching capability you will always see if another NDC of the same product can generate savings. You will also have the ability to set different savings parameters based on both NDC and GPI matches. The system will only suggest NDC changes with your permission and only if your savings threshold is met.

# NDC GPI MATCHING

- One Step Redistribution
- Watch List Match
- Today's Deals
- Move Items to...
- Package Size Change
- Switch NDC for GPI Savings
- Short Dated Items
- User GPO Drugs
- Show all for Wholesaler
- View Cart

## Save with GPI Matching

Use the Move icon to switch NDCs and save with generic substitutions. This will move the item from the wholesaler shown in bold to JAMSRx (VAWD).

# REIMBURSEMENT ALERT

Prospective Reimbursement Alert provides the ability to analyze all items in your purchase order against your pharmacy's choice of "MAC" databases. Showing real time warnings of potential negative margin situations along with highlighting negative to positive margin opportunities. Reimbursement Alert will also identify "Short-Cycle" generics for long term care pharmacies. PharmSaver provides separate parameters specifically for reimbursement challenges such as Medicare Part D.

# DRUG

# SHORTAGES IN STOCK

PharmSaver, with our access to inventories throughout the supply chain, is able in real time to identify all pharmaceutical products in short supply on a daily basis. We then customize this list to your pharmacy not only identifying the items but also create an easy to use tool to order these products on PharmSaver. We give you the ability, IN REAL TIME, to both be aware of and procure products that may be in shortage or backorder elsewhere in the industry.

We know how hard it is to find shortage pharmaceuticals so we do everything we can to bring you the items you need. The list below is customized to your pharmacy based on participating wholesalers and their stock level of drugs in short supply. Enter Qty and click the "Add" button to add these items to your cart.

# REMS ORDERING

Most pharmacists are now familiar with the FDA's required REMS (Risk Evaluation and Mitigation Strategy) program, used to manage potential risks associated with specific medications.

At PharmSaver we want to make sure that when your pharmacy orders a REMS drug you receive it in your normal ground or overnight shipment without delay. To help remind pharmacies and to provide certification information to partner wholesalers we have implemented a REMS enhancement that makes it easy to track certification.

We receive a file of pharmacies certified to order a REMS drug on a daily basis. We use your pharmacy's DEA and NPI to determine your pharmacy's status and notify the wholesaler when you place your order on PharmSaver. Once your order is complete you will see the order in your pharmacy's Order History. The REMS items again show "Certified" or "Restricted".

Order Cost: \$444.90

# SHORT DATE OPPORTUNITY

We created the Short Date Opportunity Purchasing Module in conjunction with Datarithm™, an inventory control company. The app analyzes your dispensing history to identify buying opportunities at HUGE savings - often over 80% of regular dating! Using the app, you'll set purchase parameters such as generic discount and minimum inventory dating. We then calculate not only what products to buy, but how much to maximize your savings. We make it fast and easy for you to find and purchase the best short dated opportunities. But you have to act fast as most items are only available for a limited time.

**DATARITHM™**  
INVENTORY CONTROLLED

## Today's Short Date Opportunities

Wednesday, January 22, 2020

Accelerate your profits! PharmSaver.net and Datarithm have compiled a list of **special short date opportunities** just for your pharmacy. You can take advantage of PharmSaver's tremendous values and Datarithm's precise inventory forecasting to improve your business. Be sure to check often as this list is updated based on item availability. Enter quantity for selected item and click **Add to Cart**.

## **PharmSaver Success Stories**

I love PharmSaver for their great pricing and great customer service. Any time you need something they are always willing to go the extra mile to ensure your satisfaction and help you with any questions or concerns you may have.

-Ashley B. Woodway, TX

PharmSaver has been a "knight in shining armor" in saving us money. I don't have the time to talk with all the generic wholesalers and PharmSaver has not only saved us money, but also valuable time. We look to PharmSaver first then check it against our primary wholesaler, needless to say, 9 out of 10 times we order from PharmSaver.

-John D. Hillsboro, IL

PharmSaver's tools allow us to do what was before impossible, to check a dozen wholesalers to make sure we're getting the best price before we buy. In the current state of independent pharmacy, we view them as an essential partner and I would recommend them to every pharmacy owner.

- Marshall M. Midwest City, OK
