# WELCOME TO PHARMSAVER

SHOP YOUR WAY

## Testimonials

I love Pharmsaver for their great pricing and great customer service. Any time you need something they are always willing to go the extra mile to ensure your satisfaction and help you with any questions or concerns you may have.  
-Ashley B. Woodway, TX

Pharmsaver has been a "knight in shining armor" in saving us money. I don't have the time to talk with all the generic wholesalers and Pharmsaver has not only saved us money but also valuable time. We look to Pharmsaver first then check it against our primary wholesaler, needless to say, 9 out of 10 times we order from Pharmsaver.  
-John D. Hillsboro, IL

Simply put, Pharmsaver is a genius product, when it comes to workflow optimization and getting the best prices without hiring a buyer!  
-Nick K. Punxsutawny, PA

Pharmsaver™ is a client-driven company that saves U.S. Pharmacies time and money. Our systems are easy to use, powerful, feature rich and simply the best pharmaceutical ordering service available.

We offer a one-stop shop that connects your pharmacy to a dynamic marketplace of 14 pharmaceutical wholesalers and we do it in a way that enhances not restricts your current ordering process. You set the rules and we find the best price. With no wholesaler affiliations we guarantee an unbiased marketplace.

While you can enter one item at a time, PharmSaver is the only online service that lets you upload a primary wholesaler purchase order and compare against current pricing at other wholesalers. In seconds we can compare hundreds of pharmaceuticals against more than a dozen wholesaler catalogs and deliver the best price performance.

We created the Short Date Opportunity Purchasing Module in conjunction with Datarithm™, an inventory control company. The app analyzes your dispensing history to identify buying opportunities at HUGE savings - often over 80% of regular dating!

Using the app you'll set purchase parameters such as generic discount and minimum inventory dating and we calculate not only what products to buy but how much to maximize your savings. We make it fast and easy for you to find and purchase the best short dated opportunities. But you have to act fast as most items are only available for a limited time.

SHORT DATE OPPORTUNITIES

REIMBURSEMENT ALERT

Prospective Reimbursement Alert provides the ability to analyze all items in your purchase order against your pharmacy’s choice of “MAC” databases. It shows real time warnings of potential negative margin situations along with highlighting negative to positive margin opportunities. Reimbursement Alert will also identify “Short-Cycle” generics for long term care pharmacies. Pharmsaver provides separate parameters specifically for reimbursement issues.

# DISPENSING SYSTEM INTEGRATION

Pharmsaver interfaces with many pharmacy dispensing systems. Rx30 for example will automatically send the PO generated in Rx30 to Pharmsaver.

Pharmsaver also allows uploads of PDF and Excel files from primary wholesalers.

The system evaluates the pricing based on customizable purchasing rules. Pharmsaver compares dead net pricing to over a dozen other wholesalers to maximize savings. We analyze your complete purchase order in seconds.

## PO Cardinal Health Inc Help

Cutoff Time: 06:00 PM

Match: **Match by NDC w/GPI Override**

Selection: **Lowest Unit Cost**

We select items with:

Min Brand Disc: 0.25%

Min Generic Disc: \$10.00 -or- 5.00%

Your primary wholesaler offers:

Brand Rebate: 0.00%

Generic Rebate: 20.00%

Rebate Code:

The Cardinal Health Inc Purchase Order upload automatically extracts purchase information saving you time.

Numbers shown following Numeric/Alpha is maximum length allowed for field. Items selected based on your matching criteria will be automatically added to your cart. After uploading you can view, change and delete items from the cart.

# PRIMARY WHOLESALE UPLOAD

# PHARMSAVER USER GPO

The system evaluates the pricing based on customizable purchasing rules. Pharmsaver compares dead net pricing to over a dozen other wholesalers to maximize savings. We analyze your complete purchase order in seconds.

The Pharmsaver User GPO provides best market pricing AND NDC uniformity. Pharmsaver negotiates with manufactrurers to guarantee competitive market pricing on specific drugs. This program is available exclusively to Pharmsaver users.

Contracted items are highlighted in cyan.
